One payload in. A customer-ready ThingsBoard demo out.

Fixed-scope ThingsBoard delivery by Vinay Tiwari, Pakvaro. Your device, made ready.

What you get

· One existing MQTT, HTTP or LoRaWAN payload, configured in your own ThingsBoard tenant, licence or Cloud account
· One operator dashboard and the agreed customer view
· One offline alarm and one threshold alarm, each tested opening and clearing
· One sample weekly report, reconciled to the test data
· The applicable acceptance checks (9 of 10), with written evidence
· Configuration export and a recorded remote handover

Not included

Field work (site visits, mounting, wiring, connectivity, calibration, commissioning), hardware design, firmware changes, native apps, regulated or medical data, life-safety, industrial-control or remote-actuation work, 24/7 support, production cutover, licence or legal advice.

Good fit

A working device, a named decision-maker, a real demo or pilot deadline, remote delivery, non-regulated data.

PRICE AND TIMING

Price: ₹14,999 total; no GST is charged (India) · USD 500 (global). 100% in advance by bank transfer or UPI with an invoice; global orders may use a funded Upwork milestone. You pay platform or subscription costs directly.

Reference price: ₹11,999 total; no GST is charged · USD 400, when you grant the pre-agreed case-study publication rights in Schedule P.

Timing: within 15 business days after complete inputs and access, with a 10-business-day target. Next start: 14 Dec 2026 (India), 4 Jan 2027 (global).

How acceptance works

Before work starts, the payload, fields, units, timezone, alarm values, report calculation, your inputs and the pass/fail evidence are agreed in writing. Before handover, a peer reviewer (personal acquaintance) re-runs the same checks. You run the acceptance checks. Your accounts, keys, billing and deliverables stay yours.

Remedies

If a check Pakvaro is responsible for fails: Pakvaro fixes it within 5 business days. If it still fails, Pakvaro refunds the unearned amount. One cure window only.

Delay: if a Pakvaro-caused delay passes the written date by more than 5 business days, you may cancel and receive a refund of the unearned amount.
